Zvest Financial services

The idea of Zvest Financial Services LLP was conceived when we realised the fact that every client is unique and has specific goals and requirements that change constantly. Just like individuals, markets react not only to macro-economic factors and financial health of the companies but also to geo-political and social factors. The clients prefer a one stop solution for integrating their financial needs viz. investments; wealth transfer; taxation and legal advisory; life style, philanthropic and geriatric requirements, which can cater to their needs with maximum flexibility.

Inertia Wealth Creators

Inertia Financial Advisory LLP (INERTIA) is committed to the possibility of financial freedom of its clients by helping them build wealth through long-term investments in equities. INERTIA provides a unique view about ‘money and investing’ such that people start looking at money as a resource to be managed efficiently rather than just a ‘medium of exchange’ or a ‘pool of savings’. INERTIA is aimed at empowering people to traverse the journey of successful wealth creation so as to set them free to be and free to act. Inertia puts its clients in control irrespective of the market situation.

Bliss Botanicals

Bliss Botanicals was born out of a shared passion for Organic and Natural Products. Over the ages, products have moved from being traditional and natural solutions for human needs to chemical based products driven by convenience rather than effectiveness. Frustrated with moisturizers that don't moisturize, creams that are not creamy enough, lotions that mention "ultrahydration" "intense moisturization" etc but vanish within a couple of hours and butters that only contain chemicals, They set out to find an ingredient that actually hydrates longer, moisturizes intensely and does what it says,

EasyLeadz builds Sales intelligence for businesses by tracking sales signals. Identify right prospects, reach out to decision makers and send automated e-mails at right time all from a single dashboard.

Their sales intelligence platform help companies identify potential B2B leads by tracking sales signals like:

- Target start-ups that are recently raising funds,
- Target companies hiring for roles complementary to your product/services (ex: companies hiring for digital marketing are right fit for companies selling digital marketing services),
- Target companies looking for product/services that you offer,
- Target companies that are launching new website, new mobile app, new outlet, new product etc.
